*The nutritional information provided above should be used as a guideline only. The nutritional data was derived through calculations based on nutritional data from raw materials. Complete and accurate nutritional information can only be obtained through chemical analysis of the finished product. Nutritional values can change due to processing, handling and storage, which only analysis can detect.

**Amino acids, as the building blocks of protein, have been given calorie values of 4kcal/g.

***Water values are calculated on max water values. This value should be the absolute max water.

****The calculated vitamin and mineral values above include any overages added to ensure the finished product meets the customer's requested nutrient levels.

*****Prinova will not claim folate from synthetic methylated folate until FDA approval is complete. Per the FDA, Folate (DFE) = Synthetic Folate x 1.7

*****As of 12/4/19, we have updated our potency values for all-rac- α -tocopherol, all-rac- α -tocopheryl acetate and all-rac-tocopheryl succinate (formerly known as DL-forms) to match the new FDA guidelines.
